ASTM Compass[®] – Online Training Courses

ASTM offers several types of online standards training courses through the Online Learning Center available through Compass:

- **Online Self-Study Courses:** eLearning courses created specifically for online access on any device
- **Instructor-Led eLearning:** Video recordings of expert instructors with interactive eLearning features

ASTM Offers More than 250 Online Training Courses

Expert-driven, standard-focused training used by industry professionals as ongoing education and by companies as components of employee training. Courses available in topic areas such as:

- Petroleum, LPG, and Petroleum Sampling
- Construction Materials
- Environmental Site Assessment programs
- Metals and Mechanical testing
- Plastics
- Light Sport Aircraft
- Oxygen
- Cannabis
- Lab and Field Fundamentals

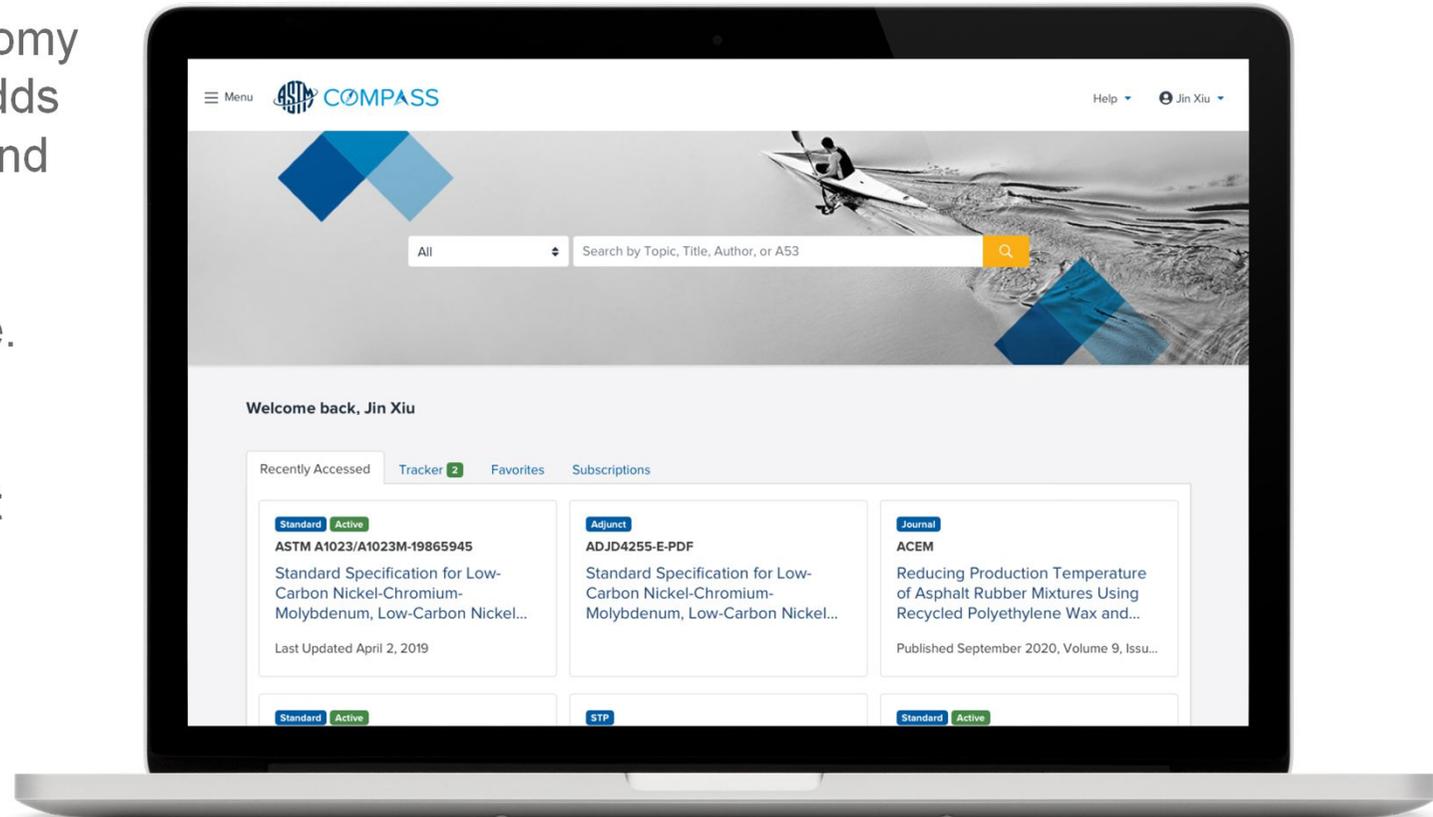

ASTM Compass[®] – Search Refinements and Translated Taxonomy

Translated taxonomy and key words adds new categories and customizes your search in your primary language.

Compass makes it easy to find just what you need.

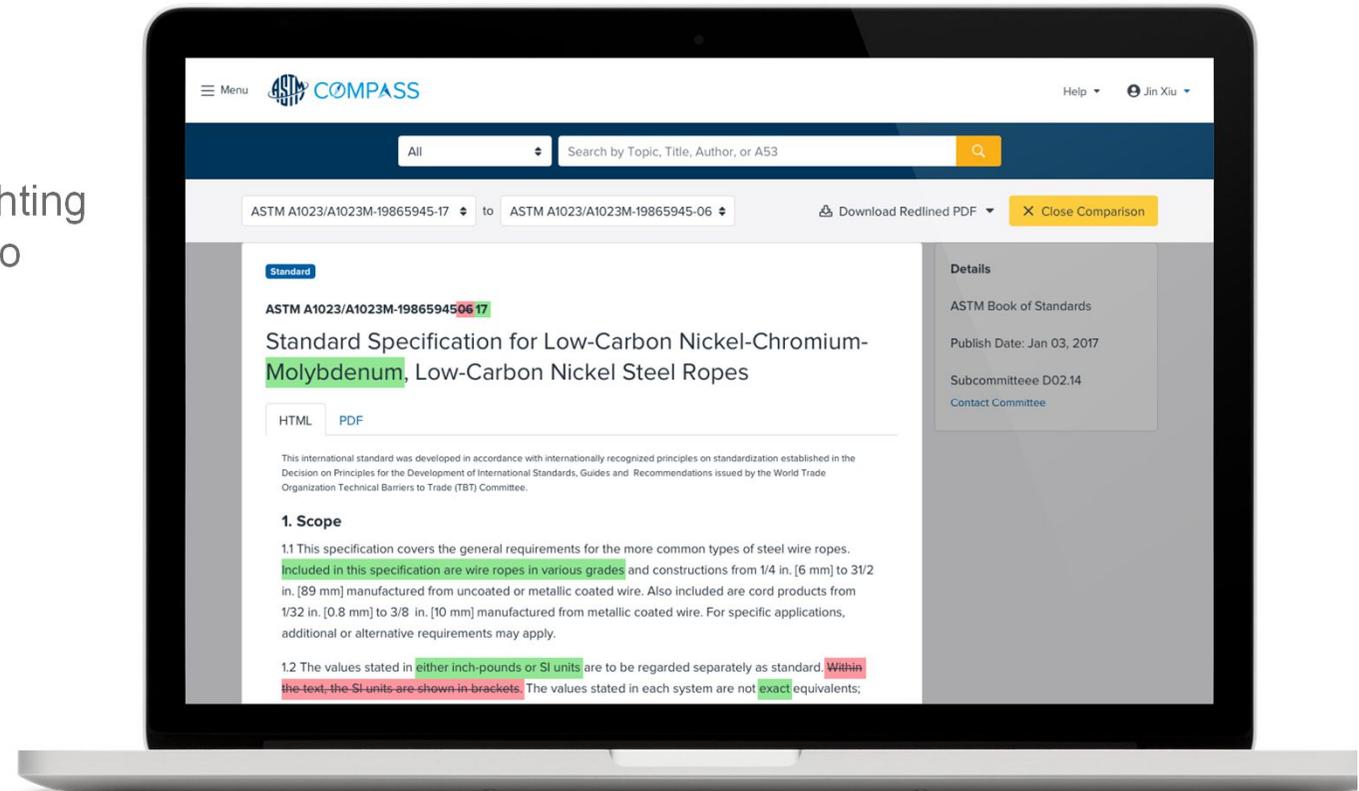

ASTM Compass[®] – Exclusive Productivity Tools

Access to exclusive productivity tools in Compass enables users to:

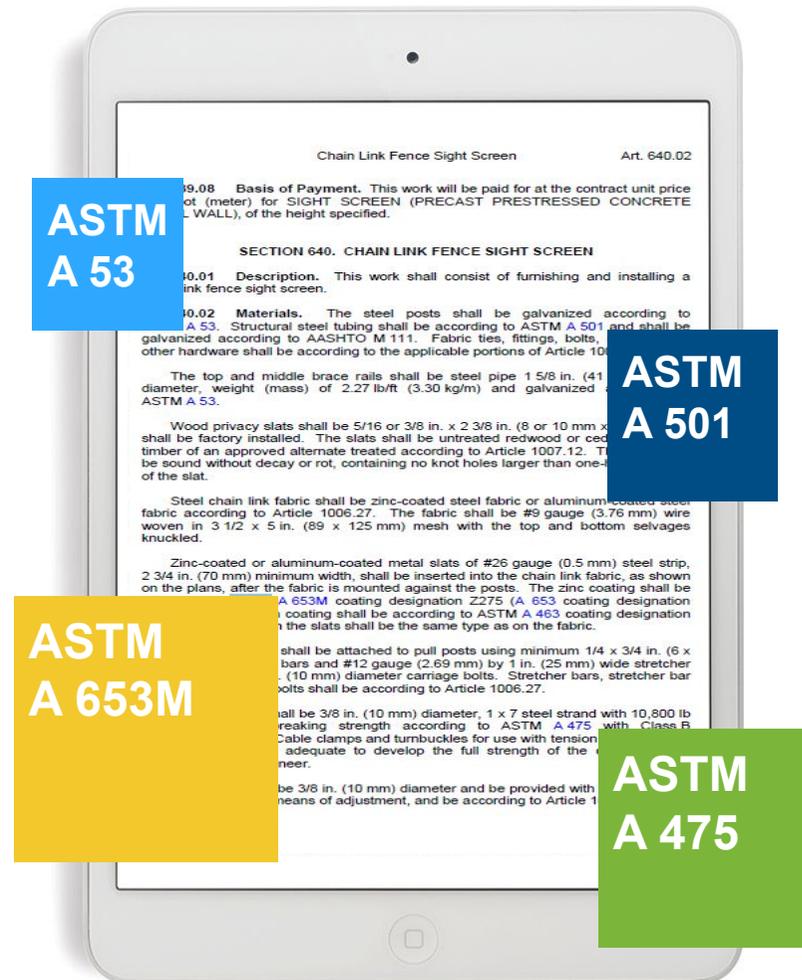

- Add notes, images, and attachments
- See color-coded highlighting that identifies changes to standards
- Create workgroups and share standards

ASTM Compass[®] – Improving Workflow

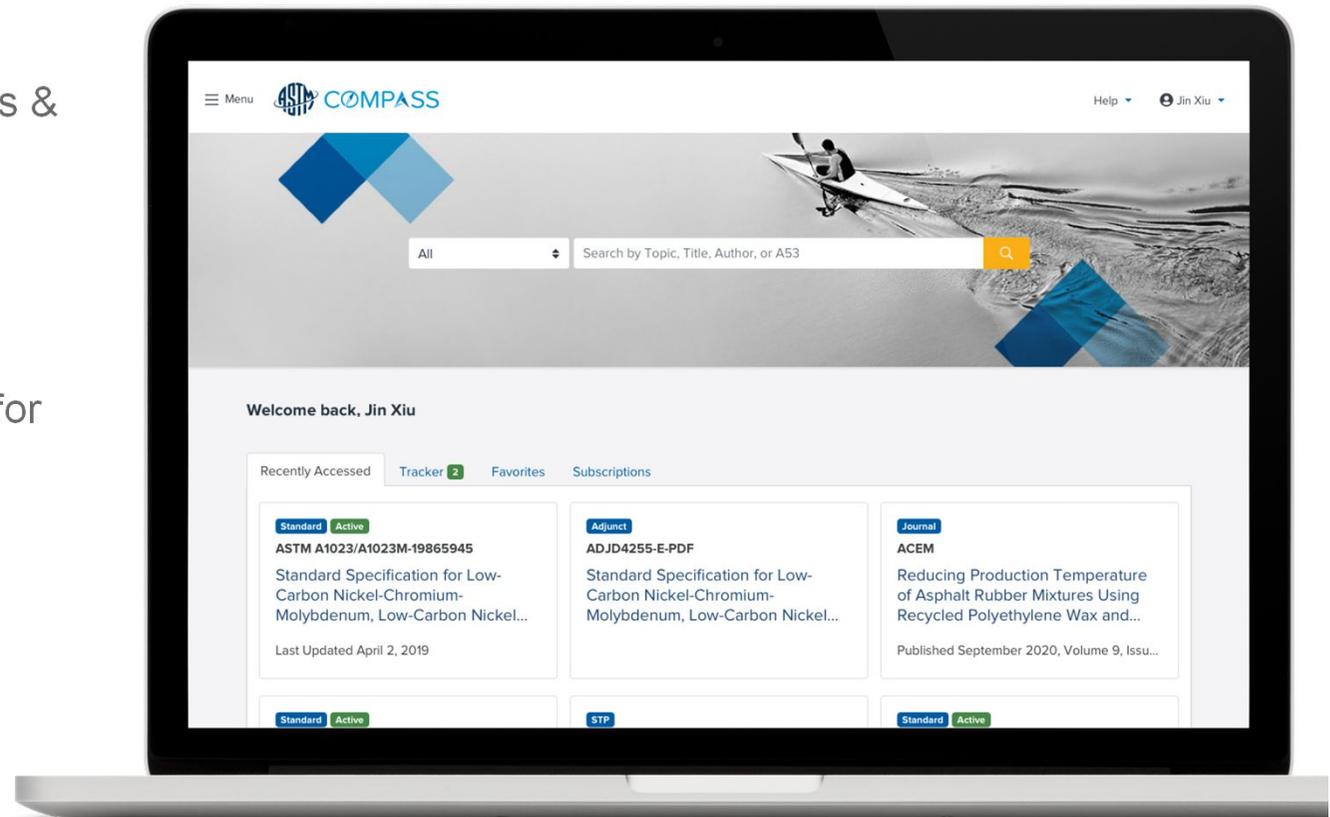

- Your Staff can easily find ASTM standards
- Your Contractors can quickly purchase ASTM standards
- ASTM offers cross-linking directly from your organization’s specifications to the ASTM standards you need:
 - Hyperlinks to ASTM standards within the spec take you right to the full standards within your Compass subscription
 - Forward your specification to your Contractor and those same ASTM standard hyperlinks take the Contractor to a web store where the ASTM standard can be purchased
- Easy, Efficient, Effortless

ASTM Compass[®] – Flexible Access for Administrators and Librarians

- Secure, reliable platform
- IP based – no user names & passwords to remember
- Online usage statistics (COUNTER compliant)
- Customer support
- MARC records available for free from our website
- No concurrent user restrictions
- No download restrictions
- DOI reference linking via CrossRef, Summon
- LAN, WAN, campus wide networks & consortia options
- Applet access available
