

Open access agreement

# Your guide to article licensing as an open access agreement author

**Find** out more

[rsc.li/oa-agreement](https://rsc.li/oa-agreement)

# Manuscript accepted? Congratulations!

Once you've clicked the link in your 'licence to publish' email, follow the steps below.

## Step one: go online

Your link will take you to this web page.

To be eligible you should be listed as the corresponding author at submission.

Use your institutional email address when you submit in order to be recognised from the correct institution

Click start now

### Let's start

These are the details that were provided during article submission. If you need to make any changes you will be able to do so as part of the proof correction process.

#### Article details

|                 |                |
|-----------------|----------------|
| Article title   | A test article |
| Journal         | Hybrid journal |
| Manuscript ID   | AA00000A       |
| Manuscript type | Paper          |

Check your institute's details on our [Journal Finder](#). If you believe you're eligible for an unlisted agreement or discount, please contact the [Customer Services team](#) before signing.

Start now

## Step two: pick your route

### Article Licensing

You will only see this if you are choosing to submit to a hybrid journal. If you are publishing in an open access journal, please move to the next page

#### Gold open access has already been paid for

- ✓ **Example Institute** has an open access agreement with the Royal Society of Chemistry and they have already paid the article processing charge for this article.

#### Gold open access

Your article will be published [gold open access](#).

- ✓ **£0** - no payment required
- ✓ Version of record is freely available to everyone
- ✓ Open access is immediate upon publication
- ✓ Author retains copyright
- ✓ Choice of open access licence: CC BY or CC BY-NC

Select gold open access and press continue

[I don't want to publish gold open access](#)

## Step three: select your licence

### Article Licensing

#### Select your licence

Licence information is available on the [Creative Commons website](#).

#### Licence

Select the appropriate licence according to your funding body and research institute requirements.

☒ **CC BY**

Creative Commons Attribution

Under this licence other users are free to:

- copy and redistribute the material
- reuse, adapt, and build upon the material **for any purpose, even commercially**
- The user must give appropriate credit to the original copyright owner

☐ **CC BY-NC**

Creative Commons Attribution Non-Commercial

Under this licence other users are free to:

- copy and redistribute the material
- reuse, adapt, and build upon the material **but not commercially**
- The user must give appropriate credit to the original copyright owner

#### THE ROYAL SOCIETY OF CHEMISTRY CC BY Licence to Publish Agreement

This licence to publish agreement (hereinafter the **Agreement**) sets out the rights granted to the Royal Society of Chemistry (**RSC**) a company incorporated in England by Royal Charter (Registered No. RC000524) and a Registered Charity No. 207890 whose registered office is located at Burlington House, Piccadilly London W1J 0BA, United Kingdom by the Copyright Owner(s) to allow the RSC to publish the Article and Supplementary Material, as defined below. It also sets out the rights and warranties of the Copyright Owner(s). Publication is subject to the terms and conditions set out below.

1.1 By signing this Agreement, the Copyright Owner(s) will be deemed to have read and accepted the terms and conditions of the Agreement, confirm that all the authors are aware of the content of the Article at the time of submission, agree to grant the licence as detailed herein and confirm that they have the right to grant such licence.

Licensed rights granted to the RSC:

If you are not authorised to sign the licence or if you are not sure, please contact the [Customer Services team](#).

☒ I agree to the terms and conditions of the CC BY licence and confirm that I am authorised to sign it as, or on behalf of, the copyright holder.

Check the full terms  
of each licence

Once you are happy,  
select your preferred  
option

Accept the terms and  
conditions and press  
continue

# Step four: sign your licence

## Sign your licence

Please check the details you have entered and ensure they are correct.

☒ **Paid by open access agreement - Example Institute**  
Your institute has an open access agreement with the Royal Society of Chemistry. The cost of the article processing charge (APC) has been paid by your institute.

### Article details

|                   |                                      |
|-------------------|--------------------------------------|
| Article title     | A test article                       |
| Journal           | Hybrid journal                       |
| Manuscript ID     | AA00000A                             |
| Manuscript type   | Paper                                |
| Publication route | Gold open access publication         |
| Licence           | CC BY - Creative Commons Attribution |

Double check your  
details are correct

Press confirm  
and finish

Confirm and finish
